PROJECT PRESENTATION.

KONGO CHRISTIAN CHILDREN EDUCATION PROJET (KOCCEP), is a non-governmental and non-profit making organization currently based in southern part of the Democratic republic of Congo, in the Katanga province and the city of Lubumbashi.

The organization is operating as a school project which aim is to take care of the education need of orphan's children who lost their parent in war, ethnic conflict and HIV related sickness. Children from poor families are also recruited.

As a school project, we are affiliated to Lenvik Menighet since its creation in 2008 by the diakoni department from Norway.

The funds for the running of the school project are generated by the givers, and donors from Lenvik Menighet and different activities of CONFIRMANT from Lenvik city.

We are thankful for the financial help and engagement of Lenvik Menighet du to the facts that as education in Congo is not free.

INTERNAL STRUCTURE.

- The project is runned by :

Director in charge of public relation : MUKUMBI MBUYA JOEL

Treasure : FRANCOIS MPINGA MPINGA

Secretary : GISEL KASONGO

PROJECT ACTIVITIES.

The year 2019 and 2020 was a remarkably successful year but the children education in many schools was many times interrupted by the Covid-19. During this period of closure of some schools, our project conducted many sport activities to help the children to keep their focus on education and do social works in different churches in the city of Lubumbashi.

We therefore thank Lenvik menighet and fathers partner in Norway for different gifts we received in the year 2019 and 2021: pens,books,football.

Koccep project acts on behalf of Lenvik menighet by paying the school fees directly to different schools where the children attend.

The school fees are:

- 10.USD for primary school
- 20.USD for secondary school.

Since the beginning in 2008, the KOCCEP project is involved in educational campaign to sensitize and motivate parents and children about the importance of education.

- We give priority to child girls and offer them opportunity to go to school. Our initiative is aimed to discourage early marriage for child girls.
- The project cares for 60 child girls and 40 boys.
- With the help of Lenvik Menighet the project distributes bibles to children members of the school project.

OUR OBJECTIVES.

- Sending children to school by providing financial support with the financial assistance from the Lenvik Menighet from Norway.
- We provide educational support to 100 children every year.
- Removing children from the street and sending them to school has been our main ground work.
- We have so far reintegrated a good number of child soldier back to the

society through education as we use school tools as a channel of reintegration.

- We campaign against early child girl's marriage by offering financial support to poor families to send child girl to school.
- To give to children of Congo the opportunity to read and write a letter.
- Targeting uneducated women who never went to school and provide them with basic elementary education in terms of writing and reading.
- We are planning to build our own school if we get enough resources and funding from our partners. In this manner we can provide education to 500 students every year.

INCORPORATED SCHOOLS.

Schools are located in different area of the city of Lubumbashi.

Asani primary school.

Dana primary school.

Caritas primary school.

Vangu primary and secondary school.

Perseverance primary school.

THE CHALLENGES IN THE PROJECT.

- The project runs with a very limited budget due to restricted fund from our Norwegian donors.
- School material like books, pens, and uniform are not always include in the budget and depend on the financial ability of our donors Lenvik Menighet.
- Children move from one school to another from year to year.
- The administrative fund of 3% is requested to run the project.
