PROJECT PRESENTATION.

KONGO CHRISTIAN CHILDREN EDUCATION PROJET (KOCCEP) started in 2008 in Lubumbashi in Congo DRC: Koccep is a non-governmental and non-profit making organization currently based in southern part of the Democratic republic of Congo, in the Katanga province and the city of Lubumbashi.

The organization is operating as a school project which aim is to take care of the education need of orphan's children who lost their parent in war, ethnic conflict and HIV related sickness. Children from poor families are also recruited.

This new academic year 2022 the project has included some children from a new compound : Kibembe and Kakila village. Our school project is affiliated to Lenvik Menighet since its creation in 2008 by the diakoni department from Norway.

We got the visit of MICHEL MULUMBA from Norway. He brought us pens, books and other school materials.

We went with our team to visit families and schools to talk with directors of different schools.

We thank our gives and donors from Lenvik Menighet and different activities of CONFIRMANT from Lenvik city.

God bless you.

INTERNAL STRUCTURE.

PROJECT ACTIVITIES.

The year 2020 and 2021 was a remarkably successful despite the pandemic of corona virus covid 19. The government has put in place safety measures such as wearing of mask and use of disinfectant in all schools of the Republic.

The children education in some schools was many times interrupted by the Covid-19. During this period of closure of some schools, our project conducted many sport activities to help the children to keep their focus on education and do social works in different churches in the city of Lubumbashi.

We therefore thank Lenvik menighet and fathers partner in Norway for different gifts we received in the year 2021 and 2022: pens, books.

Koccep project acts on behalf of Lenvik menighet by paying the school fees directly to different schools where the children attend.

The school fees are:

- 10.USD for primary school
- 20.USD for secondary school.
- The project cares for 60 child girls and 40 boys.

OBJECTIVES

- Sending children to school by providing financial support with the financial assistance from the Lenvik Menighet from Norway.
- We provide educational support to 100 children every year.
- Removing children from the street and sending them to school has been our main ground work.
- We have so far reintegrated a good number of child soldier back to the **INCORPORATED SCHOOLS**. society through education as we use school tools as a channel of reintegration.

- We campaign against early child girl's marriage by offering financial support to poor families to send child girl to school.
- To give to children of Congo the opportunity to read and write a letter.
- Targeting uneducated women who never went to school and provide them with basic elementary education in terms of writing and reading.
- We are planning to build our own school if we get enough resources and funding from our partners. In this manner we can provide education to 500 students every year.

Schools are located in different area of the city of Lubumbashi.

Asani primary school.

Dana primary school.

Caritas primary school.

Vangu primary and secondary school.

Perseverance primary school.

Ecole primaire Mtoto.

Ecole primaire Kakila.

THE CHALLENGES IN THE PROJECT.

- The project runs with a very limited budget due to restricted fund from our Norwegian donors.
- School material like books, pens, and uniform are not always include in the budget and depend on the financial ability of our donors Lenvik Menighet.
- Children move from one school to another from year to year.
- The administrative fund of 3% is requested to run the project.
